

Comment to FCC regarding Proceeding 04-233

From Richard McGrath
804 Roosevelt Street
Polk City, Iowa 50226

Dear FCC:

My wife, Debi, and I are avid listeners and supporters (financially) of K-LOVE radio. K-LOVE serves us with the best sounds in praise and worship music as well as the inspired teachings of some of our favorite ministers of the Gospel. They broadcast to our area on 90.5 FM. We feel that it offers upbeat positive family programming for our community and that it would be a major setback to our community and the Des Moines Iowa area for us to lose the signal due to some LPFM station replacing it with a different format from the family programming offered by K-LOVE.

If K-LOVE were to be displaced by some other type of format instead of young people being inspired to live a positive life free from crime, they might be inspired as our son was in his early teens to turn to drugs and the alternative music scene. He even became a part time DJ for a local station that had drug feasts.

I believe it is in the publics interest to have K-LOVE remain on the air in our community because They may just help some lost soul find their way in life through their inspirational format.

Please prevent anything from hindering the impact that K-LOVE has had on both us and our friends. I strongly urge you to keep LPFM stations out of our area so that they will not hinder the signal of the best radio station broadcasting to our community. For years the Des Moines area did not have 1 Christian radio station. Now there are several. K-Love is the best of these Christian stations that broadcast to our community.

Thank you for hearing my plea.

Richard McGrath
